Professional Summary

Aspiring Cyber Security Analyst with a strong foundation in full-stack development and ethical hacking. Skilled in identifying vulnerabilities, analyzing risks, and securing applications using modern tools and methodologies. Adept at bridging the gap between development and security, with hands-on experience in secure web development and a passion for digital forensics and threat detection. Eager to contribute to a team that protects systems and data from cyber threats.

Technical Skills

- Languages: Python, JavaScript, HTML, CSS, PHP, Java, C, C++
- Cybersecurity: Ethical Hacking (Kali Linux, Wireshark, Nmap, OWASP), Basic Network Security, Penetration Testing
- Frameworks & Libraries: React.js, Django
- Databases: MongoDB, MySQL
- Tools & Platforms: Git, WordPress, Burp Suite, Linux CLI, Metasploit
- Other: REST APIs, Responsive Web Design, Payment Integration (eSewa, Khalti)

Education

• BSc. CSIT (Ongoing) – Orchid International College, Gaushala, Kathmandu

• +2 (Science) – Liverpool International College, New Baneshwor, Kathmandu

• SEE – Divya Jyoti Secondary English Boarding School, Barahathawa-07, Sarlahi

Certifications & Courses

• Ethical Hacking – April 2025

• Full-Stack MERN Development – March 2024

• Django Web Development – May 2023

• Planning for: CompTIA Security+ or CEH

Projects & Security-Relevant Experience

🔐 House Permit Portal (MERN Stack)
Implemented secure authentication, access control, and data validation on both front-end

and back-end.
- Features: JWT authentication, user roles (admin vs user), and secure payment integration.
- Tools: React, Node.js, Express, MongoDB

🛎️ Hotel Management System (Django)
Developed with secure admin and user access, using Django's built-in security practices.
- Features: Login system, data encryption, session management, room allocation.

🔎 Bug Hunting Practice (Ongoing)
- Practicing capture-the-flag (CTF) challenges on TryHackMe
- Hands-on with network scanning (Nmap), vulnerability scanning (Burp Suite), and traffic analysis (Wireshark)

Languages

Nepali (Native), English (Fluent), Hindi, Bajika, Maithili (Conversational)

Hobbies & Interests

• Cybersecurity Labs & CTF Challenges 🛡️

• Web Security Research 🔍

• Bike Riding 🏍️

• Exploring Tech & Tools 🧰
